Tuckdawa Garden,

PERU, INDIANA.

PEONIES . . .

Orders totaling \$2.50 PREPAID. For less always include 15c for first root and 5c for each additional root up to \$2.50 order. We start filling Peony orders about September 15th until November 15th. Our own plantings are made then until the ground freezes. Orders filled as received here. Only vigorous, trimmed-back, 3 to 5 eye divisions supplied, and with cultural directions.

Peony Collections . . .

Complying with somewhat general request we are again listing Peonies in COLLECTION. Pretty hard to arrange them to meet every situation, so if any of the varieties named do not suit, you may substitute your OWN choice providing the catalog price is the same as the varieties displaced. We limit this substitution to TWO varieties in a COLLECTION.

NO PEONY ROOTS SHIPPED IN SPRING.

JAPANESE IRIS . . .

Your garden is not complete without some beautiful
Japanese Iris of distinctive coloring to glorify it. Space
prevents more than a brief description. Easy to grow.
Contrary to somewhat popular conception Jap Iris do not
like wet 'feet"—except at blooming time, then plenty of
moisture makes for a glorious display of bloom.

Strong, vigorous divisions supplied. Every variety dis-
tinct in coloring. PREPAID anywhere in U. S. if ordered
\$1.50 or more. Otherwise add 15c for postage.

10 • Hybrid AMARYLLIS — BLOOM THEM OUTDOORS

ORIENTAL POPPIES . . .

It takes a display of Orientals to bring out the "Oh's" and "Ah's." Give your garden splashes of vivid coloring possible only with these fine flowers.

We ship only heavy, field-grown roots that will give you "next Spring" flowers with reasonable care. Something to remember in buying Orientals if you want quick, sure results.

We prepay on orders for Orientals \$2.00 or more. If for less include 15c per order.

Begin digging and filling Poppy orders in late August to October 15th—depending on weather variation.

CULTURAL DIRECTIONS FURNISHED.

Each

BETTY SUE—Here's one popular Oriental Poppy with garden visitors. A dainty, beautiful soft crinkly orchid. Very free flowering, medium height blooms.....	1.00
CRIMSON GIANT—Very large orange-crimson blooms on tall stems. Very popular Oriental.....	.40
ELSIE VAUGHN—A new Oriental from England. Salmon with striking blotch	2.00
GINEE—Vigorous plant and in flower. Large flower with a bright crimson sheen40
LACKS KRONIGIN—A fine salmon rose.....	.90
LULU A. NEELEY—Absolutely true strain of this very fine. Red Oriental. Popularity of this variety makes it difficult to keep ahead of the demand50
MACONAQUAH (Formerly "STALIN")—This is a new crimson-orange of outstanding form. Flowers are very large and carried by strikingly tall strong stems. Quite late flowering.	1.00
MASTERPIECE—A very unusual color—no other Oriental this particular shade of lavender-pink. Flowers are huge and on strong stems. Exceedingly popular50
OLYMPIA—Opens full double—showing stamens later. Flame-scarlet, overlaid with glistening salmon. The earliest Oriental in the garden45
ORIENTAL HYBRIDS—Varying in color, orange to orange-crimson. Large flowering—fine for mass or individual planting. Heavy roots furnished25

HARDY LILIES . . .

The varieties listed are actually grown and dug at TUCKDAWA Garden. A number have been removed from our list because, in our estimation, not suitable for the average garden—require too much coddling. Note the digging time. Bulb sizes shown are circumference sizes.

Not tall, not breathtaking, but so odd, different—is a blooming JACOBEOAN LILY. It's botany name is disconcerting—somewhat. Pronounce it on Page 14.

A very early blooming flower, desirable for cutting is the bright yellow DORONICUM.
It deserves wide garden acquaintance. Page 13.

Until you grow "SNOWBIRD" double SHASTA DAISY, you "ain't seen nuthin'" yet.
"Snowbird" listed on Page 12.

You can have for \$1.15 prepaid, one each of the five SIBERIAN IRIS listed. After the delightful blooms are gone the foliage has mighty fine landscape value.

JAPANESE IRIS require no more care than any other hardy plant, except at blooming time they require moisture. Dislike lime. Experience the thrill of blooming JAP IRIS. See Page 9.

TWO DONT'S! Don't set Peony roots too deep—don't plant Oriental Poppy roots too shallow.

Cultural and planting directions accompany all items demanding other than ordinary handling.

Hope for the privilege of serving you!
